SUMMARY

I'm a technology enthusiast eager to grow in the IT field. I actively look for opportunities to learn new skills and keep up with industry trends. I have strong skills in C/C++ and basic knowledge of Python, with a particular interest in solving algorithmic challenges through various projects.

I work well in teams and value collaboration, bringing a calm and empathetic approach to problem-solving. I'm dedicated to reaching my goals and stay resilient when faced with challenges. I'm also interested in pursuing relevant certifications to enhance my technical skills further.
